

*The first meeting of the Green Energy, Erasmus+ project was held in the Czech Republic, on 11th to 14th November 2019. The meeting took place in the host country of the project, coordinated by Gymnázium J.V.Jirsíka, attended by partners from Romania, Poland, Turkey and Italy.*

*During the meeting were discussed: the goals of the project, the activities, as well as the project phases to be carried out in each partner country, as well as each partner's responsibility from the project.*

*The first day, 11th November 2019, was dedicated to the main session of the project in which were discussed the project phases, were established the mobilities and the partner's responsibilities.*

*During the second day, all the teams had a trip to Třeboň where they have visited a biofuel factory, recording the process and how it can be applied to the society needs.*

*In the last day of the meeting, the teams went to Prague, for a meeting with a Czech congressman, in the Czech Parliament. Over there was presented the national policy of the Czech Republic over the green energy.*

*The partners of the project are:*

 Școala Profesională specială "SAMUS" Cluj-Napoca, Romania

 Istituto Omnicomprensivo "Ridolfi- Zimarino" Italy
